

Pastel Partner 2009 – Multi-Stores Module

The Pastel Partner Multi-Store add-on module allows you to control stock in more than one store. These stores may be in the same building or in different cities.

Entrance Requirements

Learners need to meet the following prerequisites before attending this course .

1. Bookkeeping NQF Level 3 qualification or Standard 8/Grade 10 Bookkeeping
2. Computer Literacy at NQF Level 3 or Standard 8/Grade 10 Computer Literacy
3. Mathematical Literacy on Standard 8/Grade 10 Mathematics
4. Pastel Partner Practitioner Course

Target Learners

This course is designed specifically for learners who work with warehouses and want to enhance their processing and managing skills relating to inventory in a warehouse environment.

Training

This is a half day course.

Delivery Method

Facilitated workshops

Benefits

This course will provide a broad product information base and create greater awareness and confidence when using the Pastel Partner 2009 Multi-Store module. Learners will be taught about the different features in the product and how it affects them in a practical way.

Assessments

The assessment is not part of the course and is not included in the course price.

Course Outline

This module allows you to create separate stores with different inventory items linked to them. The system tracks inventory quantities per store. You can even have different selling prices for inventory items for different stores.

You will cover the following course objectives:

- Activate the Multi-Store module
- Set document numbers
- Create stores
- Link inventory items
- Set user access for the stores
